EDUCATION

Singapore Management University

Bachelor of Science (Information Systems)

Aug 2021 – Jul 2025

- Major in Business Analytics
- Relevant Modules: Web Application Development, Object Oriented Programming, Machine Learning and Application, Analytics Foundation, Introduction to AI

Zhejiang University (Semester Exchange)

School of Public Affairs

Feb 2024 – Jul 2024

- Courses taken: International Law and Relations, China Public Finance, Social Science and Cultural Hegemony, Consumer Neuroscience, Technology Entrepreneurship, Academic Writing in Psychology

Ngee Ann Polytechnic

Diploma in Business Information Technology

Jan 2016 - Dec 2019

- Awarded Tai Sin Prize for Most Outstanding Performance during '6-Month Internship'

EXPERIENCE

Urban Redevelopment Authority

Systems Analyst (AI/ML)

Jul 2025 - Present

- Developed Front-end of LLM chatbot powered by GPT-4.1 & Gemini 2.5 Pro
 - Implement web search capability for Gemini 2.5 pro and RAG for GPT 4.1
- Design and implement pipeline to web scrap website information and PDFs
 - Built RAG architecture from chunked web-scraped data using hybrid retrieval combining semantic and keyword search
- Technologies used: Prompt engineering, Next.JS, HTML, Typescript

Urban Redevelopment Authority

Product Development Intern (AI/ML)

Jan 2025 - May 2025

- Developed Front-end of in-house GPT chatbot powered by GPT-4o/4o mini
 - Tested with models such as Gemini 2.0/2.5 flash and OpenAI o3/o3-mini
- Built full-stack in-house Notion-like email editor web application using Novel with GPT 4.1 AI features
 - The application generates email drafts using GPT 4.1 using context from top 5 related past emails and related FAQs
- Technologies used: Basic prompt engineering, Next.JS, HTML, Typescript
- Internship Outline: [Presentation](#)

Twimbit Pte Ltd

Research Intern

May 2023 - July 2023

- Researched and co-authored articles on ChatGPT in Financial services, Buy now Pay Later (BNPL) and Customer Experience in Singapore Banks
 - Link to [Article](#)
- Supported conversion of slides & presentations into blog content
- Tested new ChatGPT chatbot in Twimbit website

PROJECTS

Final Year Project

Student Developer

Aug 2024 - Dec 2024

- Research and development on GenAI solutions to generate building blocks given a plot of land space for URA
- Perform classification tasks on building polygons
- Conduct UAT for end users
- Project Outline: [Urban Forms Gen AI](#)

California Fires Dashboard

Student Developer

Jan 2025 - April 2025

- Develop a web dashboard to visualize California fire data
- Used Tableau for initial visualization
- Built frontend using D3.js and React; backend with Node.js; Containerized with Docker
- Links: [Project report](#), [Project repository](#)

Email Editor Web Application

Aug 2023

- Built a web application uses Gemini Flash 2.0 to generate email drafts based on received emails and embedded FAQ data using OpenAI's text-embedding.
- Developed using Next.js, typescript; hosted on Vercel.
- Link: [Project repository](#)

Spreadsheets Analysis on Kangiiten

Jan 2023 - Apr 2023

- Performed data cleaning, exploration and visualization on Shopify data from Kangiiten
- Conducted time-series analysis to forecast demand and optimize resource allocation
- Link: [Kangiiten Presentation.pdf](#)

SKILLS

- Programming Language: Python, PHP, JS (React, Vue, D3), SQL, HTML, CSS (Bootstrap)
- Software: Tableau, Power BI, Jira, Figma
- Other: Docker, Git, Mongo DB, Firebase, Vercel
- Certification:
 - Java Certified Foundations Associate
 - AI100: Python Programming and Data Visualisation by Heicoders
 - AI200: Applied Machine Learning by Heicoders

COMMUNITY SERVICE

Cahaya Community

Singapore Management University

Mentor

Aug 2021 - Dec 2023

- Mentor students from primary and secondary schools
- Assist in homework and give free tuition

SMU Roteract Club

Singapore Management University

Mentor

Aug 2021 - June 2022

- Participate in sessions to interact with beneficiaries virtually
- Assist in conducting meet up sessions
